1.0 Policy

The relationship between the Detroit Public Schools and the Detroit Police and Fire Departments must be cooperative and effective. On a daily basis, but especially in emergencies, the District, its schools and the police and/or fire departments must be able to work in a coordinated and efficient manner.

In order to ensure coordination and efficiency, it shall be the District's policy that each school, through its principal and/or security staff, shall communicate directly with the local police and fire departments as needed. Each school shall also, however, communicate with the District's central Office of Safety and Security, in order to ensure District-wide coordination of services, law and policy compliance, and appropriate documentation and review of events necessitating police or fire assistance.

The Office of Safety and Security may also develop more specific procedures consistent with this policy and applicable law.

All staff should acquaint themselves both with Board policy and procedures and with the police and fire department procedures.
