February 1—27, 2012
Mon - Fri from 7:30 - 3:30

Philosophy and Mission Statement

DSA offers a unique curriculum of fine arts balanced with a strong emphasis on academic achievement.

We envision students employing life-long skills and goals to become good decision making adults and productive citizens, as they grow facing obstacles in our competitive world.

It is our mission to empower students, parents, and the business sector to collaboratively help improve students' academic achievement.

Our goal is give each child equal opportunities for successful learning experiences in preparation for future educational pathways, so that they can be all they can be.

We believe every child can learn, so lets make a difference in his/her life. After all, they are our future.
