

# Detroit Public Schools

## Location Guide

2011-2012

DETROIT  
PUBLIC  
SCHOOLS

It's a great time in the City of Detroit. Mayor Bing is announcing new developments. Businesses are opening. Corporations are offering incentives for employees to live in Detroit.

The public schools are, and need to be, a part of that comeback. You know that we are aggressively moving to transform education in the City of Detroit through a new educational system that will launch next year.

So, what do we tell parents this year? This year's Back to School program is very different. It reflects the journey parents must make to ensure school readiness, as well as the journey that DPS is on to improve and create new educational options for students. Even as we work hard to implement long-term structural changes, Detroit Public Schools parents should know that there are many excellent educational choices within DPS and many benefits their children can find only at a Detroit Public School.

This year's enrollment drive seeks to educate parents, display Detroit Public Schools competitive advantages, and drive home the importance of attendance. We need every student in every one of those classrooms on Day One.

The message to families will focus on the educational advantages available to students and parents/guardians, effective now, across DPS, including added instructional time in reading and math and extended school day and summer school, Netbooks for all 6th through 12th graders to utilize, two new parent portals to access their children's progress and curriculum and DPS-only college scholarships, Parent Resource Centers, as well as fine arts programs, Detroit Public School League (PSL) athletics and business partnerships that enhance learning.

My message to parents is this: There are tremendous educational advantages available to students and parents/guardians, effective now, across Detroit Public Schools.

---

**Roy S. Roberts**

DPS Leader

- 
- \$77.4 million in student grants and scholarships this year, up \$20 million since 2009.
  - 10 new state-of-the-art school buildings or major renovations.
  - Netbooks for every student in grades 6-12 for the first time this fall.
  - Extended time in reading and math instruction for all elementary students.
  - Free Summer Academy for elementary and middle school students.
  - Five new DPS-authorized charter schools led by educators with proven track records of raising achievement.
  - Reading Corps tutors for all Pre-K students in need.
  - Business partners for every school to help raise student achievement.
  - Two new online parent portals to keep parents connected to their children's class work and grades.
  - Parent engagement initiatives, including workshops and eight neighborhood Parent Resource Centers.
  - Wide-ranging scholar-athlete programs through the Detroit Public School League.
  - Robust Fine Arts programs with instrumental and, vocal music; and dance.
  - DPS-only college scholarship guarantees
  - A portfolio of school options, including single-gender, arts and medical career paths, and career technical education.
  - 9 different languages offered (Chinese, Spanish, French, German, Japanese, Arabic, Russian, Latin and Sign Language).
  - English Language Learners (ELL) teachers serving over 8,000 students, speaking 44 different languages.

## Detroit Public Schools goes high-tech to raise achievement

---

This fall, every Detroit Public Schools student will experience district-wide technology upgrades and academic enhancements as part of our mission to create Centers of Excellence in every school and in every neighborhood in the city of Detroit.

The district is in the second year of a robust five-year academic plan that has high standards, a rigorous curriculum, instructional programs that are responsive to student needs, and a high-tech environment to suit the demands of 21st Century learning.

The technology infusion includes one new netbook computer for classroom use by every student in grades 6-12 throughout the district. Netbooks are small laptop computers. In addition, every teacher has a netbook computer for use in the classroom and at home, and new Apple MacBooks, iMac computers, and iPad tablets are available in most schools.

To accommodate the new technology, every classroom in the district has wireless Internet access.

Last school year, every classroom in the district received at least one new computer and a multifunction printer. The district also installed 4,000 documentation cameras for use in every classroom, along with 700 portable digital projectors for shared use in each school.

Some 250 interactive white boards are being deployed for the high-priority school initiative. Every school that is part of the \$500.5 million bond program will also receive classrooms equipped with a computer, printer, document camera, and digital projector, and one or more fully equipped and functional computer labs.

## New DPS police headquarters provides high-tech security services to every school in the district

---

DPS has opened a new \$5.6 million police headquarters and command center, a 23,000-square-foot high-tech facility that provides an improved 24-hour security system to enhance campus safety.

The new building includes a four-station Command Center post where officers monitor campuses 24 hours a day using live-feed monitoring surveillance systems from digital cameras installed on school grounds. Every school building is monitored by an advanced alarm system that allows the district's police to pinpoint the exact location of an incident.

As part of the safety plan, visitors to many DPS schools are put through on-the-spot background checks. The badge system instantly scans visitors' driver's licenses or state ID card and cross-checks the information with sex-offender registries throughout the United States and Canada. School security personnel can also conduct manual checks using a visitor's name and date of birth if they do not have a picture ID card. The system is currently in use at 33 sites and will eventually be set up at every Detroit Public School.

"The new police headquarters houses a reorganized investigations unit with a team of investigators headed by an inspector that will bring modern-day policing capabilities to the department," said DPS Inspector General Wilbert Van Marsh, who oversees the district's security systems.

SECURITY

## DPS' \$500.5 million bond construction program means 10 new and renovated schools will open

---

Ten new or renovated schools will open this fall as part of the district's \$500.5 million bond construction program. The schools will be state-of-the-art, LEED-certified facilities. Since work began in Spring 2010 as one of the city's largest construction projects, about 500,000 hours have been logged by workers employed by Detroit-headquartered companies at 14 active job sites. Four school projects are 100 percent complete and students spent their last weeks of the 2010-11 school year in modernized classrooms, gymnasiums and theaters.

### **New and renovated schools opening for the new school year:**

**Martin Luther King Jr. Senior High (new)** The new \$46.4 million building will have a cyber cafe and media center and connect to the current auditorium and performing arts building, which has been remodeled. It will feature a new varsity gymnasium and a multi-lane natatorium.

**Gompers (new)** The new \$20.5 million Pre-K to 8 school in the Brightmoor neighborhood will replace three older buildings—Harding, Vetal, and Gompers elementary schools. The new LEED Silver Certified two-story facility will combine preschool students through grade 8 under one roof. A cafeteria, central administration office, and multi-purpose room will separate the PK-5 and middle school wings. Classrooms designed for art and science programs will be located on the first floor of the middle school wing. The second story will house general classroom space and two common rooms with large windows for natural lighting. Students in preschool through second grade will be located on the first floor of the elementary wing, with grades 3-5 on the second floor. An auditorium and multipurpose room will also be built.

**Earhart (new)** The new \$20.5 million LEED Silver Certified Pre-K to 8 school is located on Scotten Avenue overlooking Clark Park in Southwest Detroit. The school will have separate elementary and middle school wings, with shared common space for the cafeteria, administration office and multi-purpose rooms. Classrooms designed for art and science programs will be located on the first floor of the middle school wing. The upstairs classrooms will also feature large windows to bring in natural light.

**Garvey (Harambee Center addition)** The comprehensive plan for Marcus Garvey Academy calls for an \$8.6 million upgrade to building infrastructure and renovations of academic areas. At the heart of these improvements will be the new Harambee Center addition, which will become the new gathering space for the school's African-centered curriculum. A completely flexible space that can be secured from the rest of the school for use after hours, the Harambee Center will provide a welcoming home for student gatherings by day, the lunch room for the middle school students at noon, as well as ample accommodation for events for parents and the community on evenings and weekends.

**Bunche preK-8 (renovation)** The existing Duffield Elementary School building is being renovated to incorporate the Bunche PreK to 8 program. The existing facility is a large, sound structure with significant architectural value. Improved technology and classroom upgrades, including a new science lab, will support the 21st-century learning environment. A centrally located media center and project lab will be established on the second floor. A portion of the existing east wing was demolished and replaced with a new, properly outfitted gymnasium. Food preparation areas have been expanded and modernized to support student dining needs. The main office, complete with a new security suite, will be relocated in close proximity to the main entrance of the school.

**Denby (renovation)** The \$16.5 million renovation of Denby High School includes construction of a new commons area for student dining and other activities, in addition to a major renovation to the school's auditorium. A portion of the existing dining area will be repurposed to provide adequate kitchen, serving, and delivery receiving areas. The remaining space will be renovated to create a new multi-purpose area designed for use as a senior high school student dining room and as meeting space for student clubs and organizations. The media center will get two computer labs, a small group room, and a team room. Classrooms will be modernized and upgrades will be made to the lighting and electrical systems. Exterior upgrades include a new roof, parking layout, and decorative fencing.

**Henry ford (renovation)** The \$17 million renovation of Henry Ford High School includes an expansion of the student dining area and the addition of two sustainable technology labs. The electrical, mechanical and plumbing systems will be upgraded. An exterior courtyard will also be created to support green and renewable energy initiatives at the school. Security needs will be addressed through the renovation, and the overall building square footage will be reduced to match the building's student capacity with enrollment trends.

**Northwestern (renovation)** The renovation at Northwestern High School will provide a comprehensive educational experience for students, creating a 21st century learning environment. Realizing the positive educational benefits of natural lighting, light wells will be created to brighten the classrooms and the joint usage spaces in the school building. Lighting upgrades and new mechanical controls will also enhance the ability of the school to operate as efficiently and effectively as possible.

**Western international (renovation)** The \$27.8 million plan for Western International High School calls for a new athletic complex with a swimming pool addition and an exercise facility for dual use by students and the community as a health club. The existing pool will be converted into a visual and performing arts wing that will include a dance studio, language laboratories, and art classrooms in addition to a cultural center to serve as a community marketplace. A security entrance will also be created, as well as renovations to the administrative area.

**Beckham (addition)** Renovations at Detroit School of Arts East – Duke Ellington at Beckham Pre-K to 8 school, totaling \$5.2 million, will include an academic wing addition with eight classrooms and an arts addition with a dance studio, instrumental and choral rooms. It also will receive an upgraded security entrance. Duke Ellington East students will relocate to the new Beckham facility once the two additions are complete in 2011. The Duke Ellington East at Beckham program serves as a feeder school for the Detroit School of Arts, and the new addition is expected to enhance the school's artistic offerings.

## DPS adds new schools to its top-flight programs

Detroit Public Schools is reinventing itself to create a system of outstanding high-performing schools, offering parents an array of options to suit all students' needs and interests including arts, foreign language, athletics, Advanced Placement courses, dual enrollment in college, as well as remediation and enrichment opportunities through Extended Day and Summer School programs.

### Charter schools

As part of that, the district is opening five new DPS-authorized charter schools with proven track records of raising student achievement. Following an extremely rigorous bidding and community vetting process, conducted in partnership with the National Association of Charter School Authorizers, DPS has selected the following companies:

New Paradigm For Education (NPFE), which currently operates Edison Public School Academy, one of Detroit's top 10 elementary schools, will operate Glazer Elementary and Loving Elementary. Edison's students had an average proficiency of 87 percent in reading and 88 percent in math over the last three years.

Global Education Excellence (GEE), which raised student achievement at its existing schools, will operate Edmonson and White.

Educational and Management Networks (EMAN), which has significantly raised academic achievement at Oakland International Academy, will operate Hamilton. Oakland International Academy school boasts 95.2 percent proficiency in third grade math and 74.6 percent proficiency in reading, a 19.3 percent increase over reading scores five years ago.

### New High Schools

Two brand-new high schools will open in the fall for ninth grade students – the Dr. Benjamin Carson High School of Science and Medicine and the Detroit Collegiate Prep – A Diplomas Now/Michigan Future High School.

Ninth graders who enroll in the Dr. Benjamin Carson School of Science and Medicine will benefit from a college-prep curriculum that offers unique experiences for students interested in science and medicine. The school is partnering with Detroit Receiving Hospital and Michigan State University. It will add a grade each year through 12th grade.

The school is located in the former Crockett Career and Technical Center building in the heart of the Detroit Medical Center (DMC), the largest health-care provider in Southeast Michigan. Students may have access to other major health care facilities, including nearby Wayne State University School of Medicine, Barbara Ann Karmanos Cancer Institute, the Kresge Eye Institute and other specialized facilities and laboratory service providers.

At the Detroit Collegiate Prep School, the curriculum will be based on a college-going culture, including freshman year college visits, developing a four-year plan and understanding learning styles. Core academics will be aligned with the ACT to ensure college admission success. The program, which will include job shadowing opportunities for students, is centered on a partnership with three nationally-proven organizations (Talent Development, City Year, and Communities In Schools) that will facilitate mentoring and family support:

### **Top-flight high school programs**

The district also boasts some of the top high schools in Michigan, including Cass Technical High School and Renaissance High. At the Detroit School of Arts, students have access to top vocal and instrumental programs, as well as dance, in a college prep setting that is located adjacent to the Detroit Symphony Orchestra. At Davis Aerospace High School, students can learn to fly at the same time they are working to get a driver's license.

### **Single-gender**

For parents interested in single-gender offerings, the district has two single-gender schools: Frederick Douglass Academy for Young Men and the Detroit International Academy for Young Women.

DIA is the only all-girls' K-12 public school in Michigan. The school's academic focus is on math and science, and the program boasts a variety of Science, Technology, Math and Engineering (STEM) extra-curricular activities and class offerings at every grade level, including FIRST Robotics, VEX Robotics, Lego League and "You Be the Chemist."

Federick Douglass is a 6-12 school that offers a wide range of academic and athletic activities for students, including robotics, chess, foreign language classes, basketball, football, swimming and much more. The school has boasted a 100 percent college acceptance rate for the last two years.

## DPS challenges parents to get involved

---

DPS, which has already increased parent involvement by 37 percent over last year, is continuing to engage parents through useful workshops at its eight parent resource centers. The district's parents soon will be able to access a variety of education resources, including online textbooks and class assignments, from anywhere with an Internet connection, thanks to a brand-new robust online parent portal called the DPS Learning Village. And in 2012, parents, teachers, and counselors in all schools will have access to unparalleled and immediate electronic communication about students' progress tied to students' grades, absences and more. The system is connected to an online, password-protected Electronic Grade Book.

## DPS revamps Career and Technical programming

---

Starting this fall, students in Detroit Public Schools' 43 Career and Technical Education programs will receive roadmaps called Programs of Study to guide them from ninth grade through post-secondary education and careers.

The district operates four Career Technical Centers and one Technical High School that offer dozens of programs that prepare students for college and careers in high-demand fields, including Construction Trades, Culinary, Therapeutic Services, Digital/Multimedia, Applied Horticulture, and much more. Career Technical Education programs are also available in 18 of the district's comprehensive high schools. Offerings include Radio and TV Broadcasting Technology, an array of Business, Management and Technology courses as well as Aeronautics and Cosmetology.

The "Programs of Study" guidelines are just one of the changes Detroit Public Schools is implementing as it revamps its CTE programs to ensure students are more prepared for post-secondary education and the demands of 21st century employment.

Students in CTE programs will receive detailed grade-by-grade roadmaps that will outline the courses they will need to take each year in order to graduate fully prepared to enter their chosen post-secondary programs. "The Programs of Study" will list the DPS credits that colleges will accept, under new articulation agreements that are currently being negotiated.

The district also has dozens of agreements with colleges and universities across the state that allow students to earn credits free of cost while still in high school.

## More special education students in DPS working toward diplomas

---

Thousands of Detroit Public Schools high school students are now on track to earn state-sanctioned diplomas with the implementation of the Inclusion model of special education at nearly every high school in the district. Only a handful of schools previously offered this program.

Inclusion, which is required as part of the federal Individuals with Disabilities Education Act (IDEA), places students classified as learning disabled into general education settings while providing instructional support and other services. Students with moderate or severe cognitive impairments continue to receive services in contained classrooms where appropriate.

Students are classified as learning disabled if they are two grade levels behind their peers and their parents request that they receive special education services. In most cases, the students are behind because of attendance or other social issues, not because of impairment.

IDEA requires that 60 percent of special-needs students in the district be exposed to a general education curriculum and their general education peers to the best of their ability at least 80 percent of the time. In 2009, only 34 percent of special-needs students in DPS were exposed to a general education curriculum at least 80 percent of the time.

EDUCATE

## District's scholar-athletes raise the bar for competition, academics

---

The Detroit Public School League (PSL) is fertile territory for athletic talent. Because of the high caliber of competition, college coaches flock to our sporting events to find recruits. Each year, PSL scholar-athletes earn college scholarships to continue their education while making their presence felt on the teams of some of the premier Division I, Division II, and Division III universities and colleges.

Fittingly, the PSL has become an acronym for Proud, Strong, Learners! With an emphasis on raising academic standards, PSL scholar-athletes must maintain at least a 2.0 grade point average in the core courses of Math, Science, English, and Social Studies to be eligible to compete. This academic preparation is invaluable when the time comes to advance into college.

If you can make it in the PSL, you can make it anywhere. That's evidenced by the number of nationally prominent athletes who got their start on the courts and playing fields of the best high school league in the land.

COMPLETE

Recent alumni include San Diego Chargers tight end Antonio Gates (Central), New York Jets linebacker Bart Scott (Southeastern), Philadelphia Eagles linebacker Brandon Graham (Crockett), Chicago Bears linebacker Anthony Adams (King), Washington Wizards guard Jordan Crawford (CMA), Milwaukee Bucks guard Chris Douglas-Roberts (Cass Tech, Northwestern), and two of the state's last three Mr. Basketball honorees, Michigan State's Derrick Nix (Pershing) and Keith Appling (Pershing).

While the PSL is most noted for football and boys' and girls' basketball, the league also offers a full range of competition in baseball, track and field, cross country, tennis, golf, swimming, and soccer for boys; and softball, volleyball, track and field, cross country, tennis, swimming, golf, and soccer for girls.

## How to enroll

---

All incoming new and re-enrolling students must bring the following:

1. Immunization record
2. Birth certificate
3. Transcript or report cards from previous school(s)

## Visit your school of choice

---

Once you have gathered the necessary paperwork, call the school to arrange a visit in order to complete the process. A parent or guardian should accompany students. Except for application schools, students are assigned to schools in their neighborhood. Parents whose children are returning to DPS or new to the district should visit their school of choice to enroll. Transportation rules will apply.

Enrollment into an examination school, including Cass Tech, and application schools, including Detroit High School for the Fine and Performing Arts, as well as enrolling special-needs students require further steps than those listed above. The application period this year will be September 6 through October 19.

For enrollment information, call (313) 240-4DPS [(313)-240-4377]  
or visit [www.ImInDPS.org](http://www.ImInDPS.org).

## ALONZO W. BATES ACADEMY

19701 Wyoming  
P: (313) 494-7000  
Principal: TBA

Grades Served: K - 8, ASD and CI, Application Examination school for gifted and talented students. Music, Art, Spanish, afterschool tutoring/Extended day program, Accelerated reading/ math, Gifted and Talented Program for 30 years, S.T.E.A.M.; DAPCEP; Global Information Systems, Robotics/Science clubs, Chess, Girls Scouts/ Boy Scouts, Glee club, Newspaper, Videography, Book club, Recycling program, Foreign Language club, School garden, Sports, Student Government, Basketball, Volleyball, Volunteer Business Corps

## BAGLEY ELEMENTARY SCHOOL

8100 Curtis  
P: (313) 494-7175  
Principal: Clara Brooks  
Grades Served: Pre-K - 6

Music, Dance, French Club, Honors classes, Tutoring/extended day program, Internship program, Accelerated reading/math, Basketball, Flag Football, Cheerleading, Big Brothers/Big Sisters, Field Trips, Student Newspaper, Academic Games, Future City, Chess, Dance, DAPCEP, Book club, Cheerleading, Basketball, Football, Softball, Volleyball, Soccer, Volunteer Reading Corps, Business partnerships, Church/Civic mentors/tutors

## BOW, WARREN E. ELEMENTARY-MIDDLE SCHOOL

19801 Prevost Street  
P: (313) 852-0500  
Principal: Ernestine Woodward  
Grades: Pre-K-8

Music, Art, Foreign language, After-school tutoring/Extended Day program, Accelerated Reading/Math, Glory Math and Academic Games, Chess, Dance, Girls Scouts, Glee club, Media clubs, Book club, Recycling program, Science club, School garden, Drama, Cheerleading, Student government, Basketball, Baseball, Volunteer Reading Corps, Business partnerships, Church/civic group mentors/tutors

## BURNS ELEMENTARY-MIDDLE SCHOOL

14350 Terry St.  
P: (313) 852-0534  
Principal: Jacqueline Caldwell  
Grades Served: Pre-K - 8

Art, Tutoring/extended day program, Accelerated reading/math two computer Labs, "Smart" boards in all classrooms, Robotics/Science clubs, Newspaper, Videography, Basketball (boys and girls), Cheerleading, Volunteer Reading Corps, Business partnerships, Church/Civic group mentors

## CLARA W. RUTHERFORD ACADEMY

16411 Curtis  
P: (313) 852-0709  
Principal: Karen Abbott  
Grades Served: Pre-K - 5

Honors classes, Tutoring/extended day program, Accelerated reading/math, Social Work, Speech Services, Psychologist, Science fair, Resource Teacher, Math Lab, ELA Coach, Honor society, Recycling program, Science club, Basketball, Volleyball, Cheerleading, Spring/Thanksgiving Feasts, Parent Workshops, Fitness Center, Volunteer Reading Corps, Business partnerships, Church/Civic group mentors

## COLEMAN A. YOUNG ELEMENTARY SCHOOL

15771 Hubbell  
P: (313) 852-0725  
Principal: Russell Covington  
Grades Served: Pre-K - 5, Special Ed Resource Room, CI and LD programs

Music, Art, Tutoring/extended day program Accelerated reading/math, Dance, Girls Scouts/ Boy Scouts, Detroit Children's Choir, 21st Century, Hero Circle- Kids kicking cancer, Academic Games, Battle of the Books, Computer Lab, PA Guild, Basketball, Volleyball, Track and Field, Gymnastics, Volunteer Reading Corps, Belmont Community mentors/tutors

## COOKE ELEMENTARY SCHOOL

18800 Puritan  
P: (313) 494-7458  
Principal: Diane Goins  
Grades Served: Pre-K - 6

Tutoring/extended day program, Internship program, Accelerated reading/math Physical Education, Recycling program, Basketball, Cheerleading,, Academic Games, Volunteer Reading and Business Corps, Business partnerships

## DETROIT SCHOOL OF ARTS WEST LANGSTON HUGHES ACADEMY

19501 Berg Rd  
P: (313) 494-7577  
Principal: Angela Broaden  
Grades Served: 5 - 8

Arts focus, Tutoring/extended day program, Accelerated reading/math, Cheerleading, Student Government, Girls and Boys Mentoring Program, Basketball, Football, Business partnerships, Church/Civic group mentors

## DOSSIN ELEMENTARY-MIDDLE SCHOOL

16650 Glendale  
P: (313) 866-9390  
Principal: Verneice Gaines
