2015-2016 Annual Education Report (AER) Cover Letter

March 13, 2017

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2015-16 educational progress for the Dossin Elementary-Middle School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Kurtis Brown, Principal at (313) 866-9390 for assistance.

The AER is available for you to review electronically by visiting the District's website <http://detroitk12.org/aer>, the school's website at <http://detroitk12.org/schools/dossin/> or the MiSchool Data website at <https://goo.gl/XQ3AoO>. You may review a copy in the main office at your child's school or in the Parent Resource Room at Detroit Collegiate Preparatory High School at Northwestern, 2200 W. Grand Boulevard, Detroit, Michigan.

For the 2016-17 year, no new Priority or Focus schools were named; some Priority or Focus schools did exit their status because they met the exit criteria. New Reward schools were identified using school rankings and Beating the Odds information. A Focus school is one that has a large achievement gap between the highest and lowest achieving 30% of schools. A Priority school is one whose achievement and growth is in the lowest 5% of all schools in the state. A Reward school is one that has achieved one or more of the following distinctions: top 5% of schools on the Top-to-Bottom School Rankings, top 5% of schools making the greatest gains in achievement

(improvement metric), or “Beating the Odds” by outperforming the school’s predicted ranking and/or similar schools. Some schools are not identified with any of these labels. In these cases, no label is given. Our school was identified as a No Status school.

The key challenges for our school are as follows:

We did not meet the 90% attendance rate goal.

The attendance rate for the All Students subgroup is 82.68%.

We did not test 95% of our students.

Only 88.68% of the Students with Disabilities subgroup was assessed in English Language Arts.

Only 91.25% of the African American and 71.70% of the Students with Disabilities subgroups were assessed in mathematics.

We did not attain Differentiated target achievement goals for all subgroups of students in English Language Arts.

Only 0.00% of the Bottom 30% subgroup met the Differentiated target in English Language Arts.

We did not attain Differentiated target achievement goals for all subgroups of students in mathematics.

Only 0.00% of the Bottom 30% subgroup met the Differentiated target in mathematics.

We did not attain Differentiated target achievement goals for all subgroups of students in science.

Only 11.59% of the All Students; 0.00% of the Bottom 30%; and 10.17% of the Economically Disadvantaged subgroups met the Differentiated target in science.

We did not attain Differentiated target achievement goals for all subgroups of students in social studies.

Only 3.51% of the All Students; 0.00% of the Bottom 30%; 3.51% of the African American and 2.17% of the Economically Disadvantaged subgroups met the Differentiated target in social studies.

We are actively working to address our Michigan School Scorecard issues, accelerate student achievement and close persistent gaps in achievement by implementing the following key initiatives:

All Kindergarten through grade 8 students will focus on reading objectives and intervention strategies designed to increase comprehension of informational and narrative text across the curriculum using various skills, activities, and research based strategies. Dossin Elementary-Middle School will put into practice the Progressive Cycle of Learning (PCL) of Marzano's Essentials for Achieving Rigor in our Reading instruction.

Mathematics:

Dossin Elementary/Middle School will put into practice the Progressive Cycle of Learning (PCL) of Marzano's Essentials for Achieving Rigor in our Math instruction.

Tiered instructional plans targeting specific student needs will be put into practice to ensure that all students' academic needs will be met. Implementing the Progressive Cycle of Learning (PCL) of Marzano's Essentials for Achieving Rigor, will ensure the cognitive complexity of instruction across all content areas. This strategy will enrich the curriculum and advance student achievement.

Additionally, we will continue to implement Academic Games and extended learning opportunities. These initiatives and programs will increase student achievement.

Science:

Based on the results from the M-STEP and NWEA, students in grades 3-8 demonstrated a deficit in state/local assessments. The data indicated that the following objectives and intervention strategies need to be covered: knowledge of science content vocabulary, comprehension, and application of the scientific process- and hands-on experimentation.

Dossin Elementary-Middle School will implement tiered instructional plans that target specific student science needs. Additionally, we will put into the practice the Progressive Cycle of Learning (PCL) of Marzano's Essentials for Achieving Rigor in our science instruction.

Implementing science experimentation to create tiered instructional plans targeting specific student needs will ensure that all students' academic needs will be met. Implementing the Progressive Cycle of Learning (PCL) of Marzano's Essentials for Achieving Rigor, will ensure the cognitive complexity of instruction across all content areas. This strategy will enrich the curriculum and advance student achievement. Additionally, we will continue to implement the 5E's (Engage, Explore, Explain, Elaborate and Evaluate) of science instruction, and extended learning opportunities. These initiatives and programs will increase student achievement.

Social Studies:

The data indicates a need for all grade levels to focus on objectives and intervention strategies. The objectives to be covered will include: the history of Michigan with an emphasis on mapping skills, analyzing charts and graphs. The Civics Perspective and learning about the systems and branches of the U.S. government will also be included.

Tiered instructional plans targeting specific student needs will be put into practice to ensure that all students' academic needs will be met. Implementing the Progressive Cycle of Learning (PCL) of Marzano's Essentials for Achieving Rigor, will ensure the cognitive complexity of instruction

across all content areas. Both of these strategies will enrich the curriculum and advance student achievement.

Parent Involvement

Dossin has an Open Door policy which includes communication that is frequent and transparent. We will re-establish a welcoming atmosphere to allow parents to want to become more involved. There will also be parent meetings, parent teacher conferences, monthly newsletters, Robo-calls, more connections with Parent Advisory Council on Student Achievement (PACSA), and other school-wide activities and chances throughout the school year - to allow parents to become involved and/or volunteer. Workshops and resources will also be made available for parents. These strategies will also allow parents to become partners with the staff in the learning process of their children. We will emphasize to the parents that we must work in unison for the success of the children.

State law requires that we also report additional information.

Process for Assigning Pupils to the Schools

Open Enrollment Initiative

Detroit Public Schools Community District has an “Open Enrollment Initiative.” This initiative allows students to elect to attend any Detroit Public School Community District school without being required to live within the boundary for that school. The “Open Enrollment Initiative” does not apply to the Examination High Schools or Application Schools. Parents may enroll their child(ren) in the school of their interest as long as the school has not reached capacity for their particular grade. Enrollment preference is given to students who live within the boundary of a school. It should also be noted that transportation will not be provided for students who select a school outside of the boundary of their home school. “Open Enrollment Initiative” resources can be found on our website at:

http://detroitk12.org/resources/prospective_students/

Application Schools

Process for Assigning Pupils to the Schools (Continued)

Detroit Public Schools Community District has twenty-two (22) schools that require an application for enrollment. Families can apply during the application process window. Applications are open to families of current Detroit Public Schools Community District students as well as those newly enrolling or attending school elsewhere. The District uses one

application for its Application Schools. Please note requirements on the application for submission of report cards, test data, transcripts, essay and Grade Point Average information. Schools also may have other individual entry requirements. Be prepared to provide behavior reports.

Examination High Schools

During the Examination High Schools application window, all 8th grade students attending public and non-public schools are eligible to apply for admission to the 9th grade at Cass Technical High School, Renaissance High School and Martin Luther King, Jr. Senior High School’s Mathematics, Science and Applied Technology (MSAT) and Center for International Studies and Commerce programs. Residency is not required. During the beginning of the school year, students must complete and submit an application to take the placement examination.

An application is available at:

- All Detroit Public Libraries
- All Detroit Public Schools Community District’s Middle Schools
- Detroit Public Schools Community Districts’ Parent Resource Centers
- Detroit Public Schools Community District Research and Assessment Office located in the Support Services Complex Building A - 1425 East Warren Avenue

Students must submit an application to be eligible to take the examination. Completed applications and all required documents must be submitted to the student’s current school or the Detroit Public Schools’ Office of Research and Assessment. Detroit Public Schools Community Districts’ students who submit an application will test at their middle school. Non-Detroit Public Schools Community Districts’ students who submit an application will be notified of their testing date and location by mail. Applications may be mailed.

School Improvement Status

School Year	School Improvement Status
2015-2016	No Status
2014-2015	N/A

We will continue to work towards meeting our School Improvement Plan goals in English Language Arts, mathematics, science and social studies. Research-based strategies, comprehensive data analyses and data driven decision-making drives our school improvement efforts.

Detroit Public School Community District's Core Curriculum

Detroit Public School Community District's Academic Plan will provide guidance to align all resources in the interest of student achievement and support. Consistent with the Academic Plan is an aggressive plan designed to accelerate the rate of student achievement and to ensure that students graduate with the academic and social skills necessary for success in college and the workplace. The plan is organized around five Pillars of Excellence.

Pillar 1: Literacy

Provide a continuum of learning, enabling individuals to achieve their goals, to develop their knowledge and potential, and to participate fully in their community and wider society.

Pillar 2: Career Pathways

Provide students with a context for studying traditional academics and learning the skills specific to a career.

Pillar 3: Innovation

Create a shift in mindset to ensure staff is encouraged to: be flexible; try something new, and explore new ways of thinking.

Pillar 4: Family & Community

Enhance and enrich positive relationships for all stakeholders.

Pillar 5: Wrap Around Services

Ensure every student received appropriate support to elevate their social, emotional, and academic performance.

Access to the Core Curriculum

The instructional strategies and grade level expectations are aligned to the Michigan Department of Education standards (science and social studies) and Common Core State Standards (mathematics and English language arts). This represents the core curriculum for Detroit Public Schools Community District which is supported by the texts, materials, computer software and other school level resources used daily in the classrooms. All of the professional development activities are aligned to the core curriculum and/or standards. The implementation is a process delineated in the District Academic Plan at: (<http://detroitk12.org/content/wp-content/uploads/2016/11/ACADEMIC-PLAN-Executive-Summary-FINAL-2.pdf>). This plan serves as the framework for each school's academic achievement plan. The frequent monitoring of the implementation of these plans are conducted by the school diagnostic visits, review of the benchmark assessments, use of the teacher evaluation tool and adherence to the pacing calendar. The public may access the core curriculum via our public website www.detroitk12.org and then click on the link to the individual academic offices.

Parents/Guardians are offered classes through Parent University to increase parenting skills, early childhood literacy, adult literacy and GED. During the school year, the Parent Resource Centers are a valuable resource that allow parents and other community members to participate in regular and on-going informational and participatory sessions focused on curriculum and instruction. The Detroit Public Schools Community District Hub, Web up-dates and semi-annual progress reports are a means to disseminate achievement information to educators.

Student Achievement Results

Aggregate Student Achievement Results and Detroit Public Schools Community District's Quarterly NWEA~MAP Reading and Mathematics reports for our school can be found in the Resources section of our school's website at <http://detroitk12.org/schools/dossin/>. The following reports are available on the Detroit Public Schools Community Districts' web page at the Research, Evaluation and Assessment site at <http://detroitk12.org/data/rea/>:

Parent-Teacher Conferences (Interactions)

School Year	Total Parent Interactions	Percent
2015-2016	125	7.9%
2014-2015	195	11.5%

Parent-Teacher Conferences (Interactions) (Continued)

The Detroit Public Schools Community Districts' Office of Research and Assessment has developed a data collection system which has enabled the District to comply with the Annual Education Report criteria of identifying the number and percent of students represented by parents at Parent-Teacher Conferences (PTC).

- 1.0 Data from the PTC Forms represent "parent interactions" with teachers, per school, per card marking.
- 2.0 Parent Interaction Definition: During Parent-Teacher Conferences (and in some instances school open houses) Schools/Teachers are advised to have each parent participant provide a parent signature-a parent may not sign for a student if they did not talk about that student.
- 3.0 Some Detroit Public Schools Community District had a very high percentage of reported parent interactions. This may be due to a number of reasons. In at least two (2) instances, the calculated percentages are in excess of 100%. In each instance, each of these two (2) schools may have experienced a large parent turnout at each of the required conferences. If during each conference, one (1) parent with two (2) students enrolled in the school visited three (3) teachers for each of their two (2) students, this would count as six (6) parent interactions, thus increasing the base number and resulting percentage.

We would like to wish our students, parents, community and staff a successful year.

Sincerely,

Kurtis Brown, Principal
